PROGRAMME

Saturday the 26th December, 1959
from 9-30 a. m. to 12-30 p. m.

Shri Kavi Yogi SHUDDHANANDA BARATHI
will preside

1. Invocation
2. Welcome address
   by
   the President of the Reception Committee
3. Bhajan
4. Inaugural address and unveiling the portrait of His Holiness Swami Sivananda
5. A talk on
   'Life of Swami Sivananda'
   by
   Shri U. Chandrashekar
6. Presidential address
   by
   Shri Kavi Yogi Shuddhananda Barathi

3 p. m. to 5 p. m.

1. Bhajan
2. Discourse on
   'The Path of Salvation'
   by
   Vedantha Shiromani Sri S. Vittal Shastri
3. Discourse on
   'Gospel of Divine Life'
   by
   Srimathi Sivananda Vijayalakshmi
4. Lavani on
   Swami Sivananda
   by
   Srimathi B. Devaki Appayya

Sunday the 27th December, 1959
9-30 a. m. to 12-30 p. m.

Shri G. M. MANJANATHAYYA of Suntikoppa
will preside.

1. Havan
2. Bhajan
3. Presidential address
   by
   Shri G. M. Manjanathayya
4. Discourse on
   'The Gospel of Yoga Vedantha'
   by
   Kavi Yogi Shuddhananda Barathi
5. Bhajan

3 p. m. to 5 p. m.

1. Bhajan
2. Discourse on
   'The path and Teachings of Swami Sivananda'
   by
   Srimathi Sivananda Vani
3. Yogic Asanas demonstration

7 p. m. to 8-30 p. m.

1. Light music
2. Address by the President of the Divine Life Society, Mercara.
3. Harikatha Kalakshepa

NATIONAL ANTHEM

Raghupathy Press, Mercara.

At the end of the current year another large group of school-leavers will be seeking employment. The present almost static state of industrial demand for employment does not augur well for a satisfactory absorption of this labour force. It is vital that these young people should be put to productive work as soon as available.

There are many opportunities for apprentices, and young people should be encouraged to enter trades with the object of becoming skilled workers with an assured future career.

The middle pages of this publication of Economic Service tabulate the trends in seventy-three industries in Victoria. As at 31st May, 1963, forty-nine industries are employing less factory labour than at 30th November, 1960.

In the 2½ years since the latter date, immigration and natural increase in population has expanded the available work force. With manufacturing industries employing 36% of the total employed in Australia, it is evident that a stimulus is needed to assist the expansion and development of secondary industries.

A. N. CURPHEY,
General Manager.

INDUSTRIAL EMPLOYMENT SHOWS SMALL OVERALL INCREASE

ECONOMY REQUIRES GREATER STIMULUS

A further small increase in Victorian factory employment has been recorded during the month of May. Of the seventy-three industries surveyed by the Chamber, thirty-seven reported increased employment and thirty-four had reduced numbers on factory payrolls.

Total employment in the twelve hundred companies responding to the Survey, which was taken at 31st May, 1963, show a 0·3% increase over 26th April, 1963, but this is still 2·8% below the base figure of 30th November, 1960.

Seasonal and climatic conditions have had their effect on a number of industries, amongst these being Footwear, Cosmetic, Soft Drinks, Blinds, Canvas, Boat Builders, Paint and Varnish, Toys, Games and Sporting Goods.

However, decreases in other industries, in particular those producing durable consumer-type goods, point to weaknesses in the economy. Carpet manufacturers, furniture and furnishing fabrics, electrical appliances, hardware and tools are still in a depressed state.

To attempt to boost the economy through the medium of Government spending is only a part of the answer. It is also necessary to give incentive directly to the private sector, both to manufacturer and consumer. The most direct method of achieving this is by reduction of Income Taxes, both Company and personal, and other indirect taxes such Sales Tax and Pay-roll Tax.

The recent action in reducing interest rates a increasing public expenditure is having its effect stimulating the demand for capital goods a services. Machinery, Tool and Die Makers, Pum and Valves, Structural Engineers and Road C tractors report increases in employment.

During the week ending 31st May, the avera wage per employee increased in forty-seven of t seventy-three industries surveyed, when compar with the average five weeks earlier. This trend w need close attention to ensure that costs are n getting out of hand following the margins increase

The shortage of skilled tradesmen is st apparent in the electrical and metal trades. The are also indications of some shortages developin in the building trades. If the economy is to develo satisfactorily, this problem of shortages of skille labour must receive immediate attention.

The employment of a greater number of skille tradesmen will create additional opportunities f unskilled labour and so help to overcome th current unemployment situation.

The announcement that prospective Universit students will be turned away due to shortage accommodation only highlights another short ing in our national development.
